

Privacy Policy

TERRITORY FM is strongly committed to protecting your privacy.

The purpose of this Privacy Policy is to tell you what kind of information we may gather about you when you visit our site, how we may use that information, whether we disclose it to anyone, and the choices you have regarding our use of, and your ability to correct this information. Our policy allows you to choose what kind and how much information you provide to us and to control how we use whatever information you give us. Our goal is to provide you with a satisfying experience while allowing you to control your privacy and to give you a means to voice any questions or concerns you may have.

This policy applies only to TERRITORY FM and not to other companies' or organisations' websites to which TERRITORY FM is linked.

Collection of information

Information is collected from you primarily to make it easier and more rewarding for you to use our service. You could be asked to provide information such as your name, email address or information about what you like and do not like. It is entirely your choice whether to respond to these questions or not.

TERRITORY FM collects two types of information. The first type is anonymous information. For instance, we may collect information to tell us how many people visit this site today, but we do not know their names, where they live or their date of birth - they are 'anonymous' to us. Another example of TERRITORY FM collecting anonymous information is when TERRITORY FM audiences are invited to respond to surveys on the TERRITORY FM website. The surveys may ask you for demographic information such as your age, gender and postcode. This information is collected for research purposes, is used in the aggregate (where possible), and remains anonymous. Many of the individuals who access our service are anonymous to us.

The second type of information that TERRITORY FM collects is personal information. TERRITORY FM will collect personal information that lets us know the specifics of who you are such as your name, email address, or postal address, when you provide it to us. With this information, we can provide a variety of personalised and enhanced services that are not available to anonymous users. We hope that you will find it beneficial to provide individually identifiable information about yourself to us because it will help us make our services more valuable to you.

Sometimes, we may specifically ask for personal information about you when you sign up to use a service. Certain information may be required, such as your name, age, internet address or screen name, type of computer, in order to provide that service to you. This information may also be used to inform you of products and services which may interest you. You can choose not to receive such information when you are undertaking product or service registration on our website. We may also ask about your interests, but it is your choice whether to respond.

How much of your personal information that you choose to disclose to TERRITORY FM is completely up to you. The only way we know something about you personally is if you provide it to us, for example when you enter one of the competitions.

Use of anonymous information

TERRITORY FM automatically gathers anonymous information to monitor the use of www.territoryfm.com like the numbers and frequency of visitors to its pages. We only use such data in the aggregate. TERRITORY FM may publish or provide this aggregate data to other people.

Use of personal information

TERRITORY FM will only use the personal information you have chosen to provide us for the purpose for which you provided it. TERRITORY FM will not use it for any other purpose without your consent.
